**KNOWLEDGE**

The liturgy of the word is a decisive element in the celebration of each one of the sacraments of the Church; in pastoral practice, however, the faithful are not always conscious of this connection, nor do they appreciate the unity between gesture and word... The relationship between **word and sacramental gesture** is the liturgical expression of God's activity in the history of salvation through the *performative character* of the word itself. In salvation history there is no separation between what God *says* and what he *does*. His word appears as alive and active (Heb 4:12), as the Hebrew term *dabar* itself makes clear. In the liturgical action too, we encounter his word which accomplishes what it says. By educating the People of God to discover the performative character of God's word in the liturgy, we will help them to recognise his activity in salvation history and in their individual lives.
